Sir,

We beg to submit that we propose to conduct a Silk Twisting Factory at Kollegal, a Town in the District of Coimbatore. It is needless to mention that the Kollegal Taluk has Silk Industry as the key Industry and we are of opinion that we would be assisting the growth of this Industry by our aforesaid Factory. In as much as there is free trade in Silk now, the control being removed, Raw Silk is available in abudnance and this Taluk being one of the most important productive centres of Silk in India, we need not depend upon the import from any foreign country or from any place outside the District. We anticipate the benefit of Electric Power also as there is the definite proposal of the Government supplying electricity to Kollegal from Sivasamudram. In these days of inudstrial advancement, we humbly expect encouragement

for this national enterprise of ours from such a popular Government as the present one. It may not be out of - place to mention here that as Silk is absolutely different from cotton and as both have different markets thereby - avoiding the question of competition, it is clearly evident that our proposed scheme does not in any way prejudice the Government scheme of Khadi production. We are sanguine that the major portion of the Silk twisted in our Factory will find market in Kollegal itself which is a strong Silk Weaving Centre

Hence, we request that our claims may favourably be considered and permission granted for at least a Ring Frame of five hundred spindles.

Yours faithfully,

The Sericultural Expert who was consulted reports as follows:-

1. "The serious disability of the handloom silk weaving Industry in Madras is the inadequacy of thrown silk yarn (Organzine and Crepe) in the market. During pre-war days, large foreign imports of thrown silk and also of grade warps from Japan were borne out. Now the position of the silk weaving industry is worsened on account of the non-availability foreign thrown silk yarn and also to the limited capacity of the existing silk throwing mills in South India. It is therefore, necessary that full scope should be afforded to private enterprisers to start not only power loom mills but also silk throwing mills, so that the demand for thrown silk from hand loom weavers could be timely be met and to save them from depending on foreign imports. This will also largely tend to consolidate the position of Indian Silk Industry particularly Madras Sericulture.

2. The location of the proposed throwing mill at Kollegal has an advantages as Kollegal is an important raw silk producing area, and both filature and chark grades are available. It is also an important silk textile centre. The output of thrown silk will be easily consumed locally, and if there is any excess left over, it can be easily sold in Bangalore market being near to Kollegal."

3. I agree with the views of the Sericultural Expert and recommend the application for permission to instal a silk throwing mill at Kollegal with a frame of five hundred spindles.

Kollegal is the chief silk producing area. The number of silk throwing factories in this Province is negligible In the absence of regular imports of foreign silk and in view of the demand for thrown silk in the Province, new silk throwing mills deserve encouragement. Further the place selected offers all facilities for the industry. I therefore support the proposals of the Director of Industries and Commerce.

Summarising Note.

The Managing Agent of Messrs. Diana Corporation Ltd., Coimbatore, has applied for permission to instal a Silk throwing factory with 500 spindles at Kollegal in Coimbatore district.

The D.I.&.C. and P.T.C. have recommended the application. They have stated that the number of silk throwing factories in this province is negligible and in the absence of regular imports of foreign silk and in view of the demand for throwin silk in the province, new silk throwing mill deserve encouragement. It is also stated that Kollegal is t

chief silk producing area and offers all facilities for the silk throwing industry.

The applicant has not yet submitted the necessary application in the prescribed form for sanction for capital issue and for the import of machinery. In the letter at p. 15 c.f. the company has been asked to submit the necessary applications. The Company's ~~as not yet replied.~~ application are awaited.

In reply to the letter at p15 c.f. the Company has stated that it is proposed to purchase and put up Indian Made Machinery available in Bangalore and elsewhere. As there is no need therefore to send an application for licence to import foreign machinery. As an amount of Rs. 20,000/- only is stated to be required for the purchase of the machinery the question of obtaining the sanction of the Govt of I for issue of Capital does not also arise.

A a. p17 c.f.

The permission of the Textile Commissioner Bombay is required for the purchase of such machinery from Bangalore and elsewhere. As the D.T.C. and D.I.& C. have supported the Company's application, it may be recommended.
